Re: Specific Use Permit

To Whom It May Concern,

Autrey Motorsports operates as a parts and accessories sales and installation business. We recently received our dealer's license and would also like to sell vehicles from our location. The vehicle sales would be web-based and we would store our inventory inside our 10,000 square foot facility located at 1205 Texas Star Parkway, Suite 120. We have no desire to store cars out front. We would like to park 2-3 cars out front during business hours for advertisement purposes but these would be late model clean truck and Jeeps. We have no desire to use any type of sale banners or signs outside of the business. The vehicles would be shown by appointment only and we plan to keep 15-20 cars in inventory at a time. We understand the requirements for fuel storage and will abide by those rules. We appreciate your consideration to allow this specific use permit so that we can continue to grow our business in this great town.

Sincerely,

A handwritten signature in black ink, appearing to read 'Judson', with a long horizontal line extending to the right.
