

GEO-SURFACES

A Professional Engineering Firm

Global Synthetics Environmental, LLC

PROPOSAL FOR GEOGREEN™ GEOFLO™ INSTALLATION & Ephesus LED Lighting System with Assembly and Erection

Project Name: City of Euless, Attn: Ray McDonald, 201 N. Ector, Euless, TX 76039

Phone: 817.685.1669 Email: rmcdonald@euless.tx.gov

Global Synthetics Environmental, LLC, an authorized TIPS Vendor (herein called **Geo-Surfaces**) will provide all materials, labor and equipment necessary to install a **GeoGreen™** infilled 'replicated grass' fields with a clay colored radius infield with a 5' green halo on a **GeoFlo™** drainage and shock attenuation blanket for the City of Euless, TX (actual field dimensions, turf panel configuration and resulting square footage of purchase and/or amount of material shipped, to be determined). **Geo-Surfaces** will install the replicated grass and drainage blanket on a base and perimeter anchor constructed by **GeoSurfaces** consistent with the requirements in the attached **GeoGreen™/GeoFlo™ Installation Guide Specifications** that is made part of this Proposal by reference. The field will be solid green with a clay colored infield and home plate circle, permanently inlaid white foul lines, coach's boxes and batters boxes. The field will have base pegs located at 90' per MLB requirements. A permanent nylon home plate will be installed.

The physical performance criteria and replicated grass specifications are as stated in the **GeoGreen™/GeoFlo™ Installation Guide Specifications** referenced above. The warranty provided by **Geo-Surfaces** is the attached **Geo-Surfaces Warranty**. The **Contract Agreement** under which **Geo-Surfaces** will perform the Scope of Work is attached and made a part hereof by reference.

Global Synthetics Environmental, LLC, an authorized TIPS Vendor (herein called **Geo-Surfaces**) will provide all materials, labor and equipment necessary to install a **Geo-Sport Lighting System Ephesus LED** as shown on the photometric design included in this proposal. **Geo-Surfaces** will offload, assemble, pre-wire from top to fused distribution on bottom 10' of pole, erect and provide stamped foundation designs based on geotechnical reports provided by others. Electrical to each pole will be provided by others.

Commencement of work and shipment of materials shall be in conformance with project specifications and completion of installation shall be per the project schedule agreed to by the parties. Installation will commence following the availability and access to the site by **Geo-Surfaces** before November 1, 2016. Installation is estimated to be completed in approximately 40 good weather working days. Production of the materials must begin by November 1, 2016 or the terms of this offer will be renegotiated.

TOTAL COST for materials, labor, and equipment to be provided by **Geo-Surfaces for the field installation...** **\$287,000.00**

TOTAL COST for materials, labor, and equipment to be provided by **Geo-Surfaces for the LED installation....** **\$237,000.00**

TAXES: Included Excluded (see **Terms** below)
